### **A NOTE FROM THE EDITOR**

For the past month, a couple of our volunteers have been involved in temporary high-demand situations at their revenue producing jobs. This has hampered our ability to do the research and development required for the more in-depth articles. We expect the high demand to ease off within a couple of weeks and our capabilities to return shortly afterward. We appreciate your patience.

## FEATURES

### TONIGHT'S COMMUNITY AFFAIRS COMMISSION MEETING

[Back to the top](#)

The Community Affairs Commission will meet tonight at 6 p.m. in the City Hall Conference Room to hear an Economic Update and reports from these committees: Business Development and Retention, Residential Community Support, Communications. The meeting is open to the public.

### STREET PRESERVATION PROGRAM

[Back to the top](#)

According to the City's website, preventive maintenance on City streets began the week of Oct. 1 and is expected to continue through the end of January. The Street Crack Sealing Program is a recommended way to seal the numerous cracks found in our streets due to aging of the infrastructure. Crack Sealing seals the pavement and prevents moisture penetration into the subgrade thus preventing premature failure. The last time this was done was in 2002.

The process will begin on Harwood, going from the west side to the east side of the City limits. From there it will proceed to the other arterial and collector streets: Bedford Road, Cummings, Hospital Parkway, L. Don Dodson, Martin, McLain, Schumac and Shady Brook. Then the procedure will move into residential neighborhoods.

This program is paid by the ½-cent sales

tax that is put into the 4-B Street Maintenance Fund. For information on the Street Crack Sealing Program, contact the Public Works Department at 817/952-2200.
